

Viewing Live Streaming or Archived Videos from the SUNY Cortland Webcast Page

There are several formats that videos may be stored on the SUNY Cortland Video Server, e.g.: Quick Time, Windows Media, Flash, which will require you to have updated players from each installed on your computer. Most of the Videos are stored in the Quick Time format which you can download a free player from:

<http://www.apple.com/quicktime/download>

The URL for the SUNY Cortland Webcasting page is:

<Http://www.cortland.edu/webcast>

Live Webcast: When there is currently a live webcast in progress a red title for the event will appear in the area below the blue “Live Webcasts:” heading. Click on that link .

Archived Videos: The most recently Archived programs appear under the blue header “Recent Archived Videos:” Click on the red title of the program you wish to view.

Programs you do not see on the “Recently Archived Videos:” list can be accessed by using the “Search Video Archive” box to the right hand side of the Webcast page. You may search by keyword, or by the dropdown boxes for category or file type. Highlight your choice and click the search button. The list under “Archive Search Results” will appear to the left and list all archived videos in that category. Click on your choice.
