Description
The art and art history curriculum develops skills of analysis and critical thinking through instruction in the making and history of visual art. Art and art history courses emphasize the importance of the art object in society as a means of both individual and cultural expression, which is reinforced by a variety of guest lectures, studio critiques, and museum and gallery visits. The year-round program of exhibitions, visiting artists, and symposia organized by the Ruth E. Dowd Fine Arts Gallery complements the Department’s activities by providing further opportunities for students to apply their developing aesthetic awareness to a wide range of artwork, ideas and values.

Special Features
• Dowd Fine Arts Gallery and Art and Art History Department permanent art collection and study archive
• Internships
• Semester in New York apprenticeship program
• Visiting artists and lecturers program
• Scholarship fund
• Visual resources collection
• Cooperative work-study program

Requirements
1. Degree Requirements listed on pages 36-41 of this catalog apply to the following majors.
2. Liberal Arts Requirements – 90 credit hours.
Major in Art with a concentration in Studio Art [ART/ARTS]

Introductory courses in studio art explore a variety of expressive media, teach basic technical skills, and begin to develop perceptual awareness. Students continuing in advanced courses are directed toward an objective understanding of visual languages and a refinement of independent responses in one of the concentrated specialties in painting, printmaking, graphic design, fiber arts, ceramics, and sculpture.

Such critical explorations of either two- or three-dimensional forms facilitate intuitive problem solving. This applies not only to visual work, but has been shown to carry over into other academic and professional endeavors as well. This introduction to conceptual problem solving can be one of the most valuable contributions of the study of the visual arts within a liberal arts curriculum.

Students should be advised that although most courses do not require textbooks, studio courses require the purchase of materials and supplies some of which are included in the tuition fees. Check with the instructor.

The minor provides depth of study in a field that will support at least one of the New York State Learning Standards (State Education Department). Approved minors include: African American studies, anthropology, biology, English, French, geography, geology, history, international studies, Latin American studies, mathematics, music, Spanish, and urban studies. Special education/childhood dual major students minor in psychology of exceptionality.

ENROLLMENT IN THE MAJORS
Enrollment in the Childhood/Early Childhood Education Department majors are limited. Admission to any of the programs is competitive, based on cumulative grade point average. Admission to the College does not guarantee admission to an education major.

Students who begin as freshmen at Cortland may apply to a department major after completing at least 30 credit hours. To be accepted as a childhood/early childhood education major, students must have a cumulative Cortland grade point average of at least 2.5, and at least 2.7 for the special education/childhood education major. Application is made during the college-wide change of major period. There is a separate application process for the special education/childhood education major available through the Childhood/Early Childhood Education Department.

Transfers who have completed a minimum of 30 hours with a minimum grade point average of 2.5 may be admitted conditionally to the major. Transfers not meeting these requirements may apply to the major after completing a total of 30 hours, 15 of which must be completed at Cortland with a cumulative Cortland grade point average of at least 2.5. Application to the Teacher Education Program will be required. Application to the major must be made at admission to the College, if eligible, or during the college-wide change of major period.
ELIGIBILITY FOR STUDENT TEACHING
To be eligible for student teaching, students must be in good academic standing, have no incompletes, complete all prerequisite education courses, have an overall Cortland grade point average of 2.5 (2.7 for special education), have completed at least two-thirds of the course work in the minor, and have no grade lower than a C- in required education courses. Students must be eligible at the time of application; if ineligible, they must reapply when eligibility is achieved.

ADVISEMENT MANUAL
Advisement manuals for education majors are available in the Childhood/Early Childhood Education Department. Students must follow the manual in place at the time of their matriculation. Students should study the manual carefully since it supplements the information provided in this catalog.
