Individualized Degree

PROGRAM

FACULTY
Associate Dean, School of Arts and Sciences (Coordinator)

PROGRAMS OFFERED
Bachelor of Arts in Individualized Degree Program
Bachelor of Science in Individualized Degree Program

MAJOR OFFERED
Individualized Degree Program

DESCRIPTION
Students who wish to pursue baccalaureate study in areas that draw upon several fields of study or go beyond traditional academic majors may present a proposal for this specialized program, which is designed to meet individual interests and learning objectives. The area of concentration must be interdisciplinary and coherent, with course work which defines a conceptual theme. A traditional minor is also required. The degree plan is formulated in consultation with a faculty mentor. The program is open to all full-time and part-time students at SUNY Cortland who have been admitted to degree status.

Students who want to propose an individualized degree program should contact the program coordinator to discuss their interests and the procedures governing the application process.

SPECIAL FEATURES
• Opportunity to design individual major program in combination with traditional minor
• Emphasis on student responsibility and motivation
• Ability to combine internships with course work

Requirements
1. Degree Requirements listed on pages 36-43 of this catalog apply.
2. Liberal Arts Requirements: B.A. – 90 credit hours; B.S. – 75 credit hours

Major in Individualized Degree Program [IDP]
The Individualized Degree Program combines a traditional minor with an interdisciplinary concentration which is designed to meet the unique needs of the student. Hands-on experience is often part of the concentration.

CAREER POTENTIAL
The program offers a vast variety of opportunities for careers, depending upon the interests of each student. Past examples include:
• Technical theatre production
• Adolescent health issues
• Music industry

A. Required Courses: 24 credit hours minimum in concentration
B. Other: 15-24 credit hours in traditional minor
C. At least half of the area of concentration and minor taken in residence at SUNY Cortland
D. At least 45 credit hours at the 300-level or above
E. Six credit hours of WI courses required, at least three of which are in the concentration

INDIVIDUALIZED DEGREE PROGRAM POLICIES
1. Proposals are due to the Individualized Degree Program Committee by the time a student has completed 78 credit hours toward graduation. (Exceptions are possible for junior-level transfer students.)
2. Deadlines for submission of proposals to committee members for review are Oct. 15, Feb. 15 and June 15 of each academic year. Students must meet with the program coordinator prior to the deadline dates.
3. The maximum number of credits of completed course work which may apply to a student’s area of concentration is nine.
4. Individualized Degree Program students may qualify for cooperative education academic field experiences if two grade point averages are met: 2.5 grade point average in the area of concentration and 2.3 cumulative grade point average.
5. Requests for alterations in a student’s degree plan must be made through the advisor-mentor and approved by the program coordinator.

TOTAL CREDIT HOURS REQUIRED FOR GRADUATION: 124

Interdisciplinary Centers

Center for Advancement of Technology in Education (CATE)

FACULTY
Scott Anderson (Director)

MISSION OF THE CENTER
The mission of the Center for Advancement of Technology in Education (CATE) is to promote and facilitate the integration of technology into the curriculum and to educate faculty and students in the theory and practice of current and emerging instructional technologies.

FUNCTIONS OF THE CENTER
• To recommend priorities to the College with respect to technology and the College mission.
• To promote discussion among faculty and professional staff regarding software and hardware technology needs.

Center for Aging and Human Services

FACULTY
Anne K. Vittoria (Director)

MISSION OF THE CENTER
The Center for Aging and Human Services has a multidisciplinary focus and seeks to be a leader in and supporter of creative teaching and the development of academically sound and theoretically strong gerontology and human services curricula; to be an innovator in responding to substantive directions of change in the gerontological and human services fields in research and research-related activities; to develop and cultivate dynamic sites, physically and socially, where a community of thinkers and doers recognizes older adults as partners and truly learns about as well as from older persons; and to be an active and steadfast advocate in word and deed, politically and socially, for the aged population and disenfranchised, oppressed persons in general.

The center reports to the provost and is governed by a 16-member council of faculty, students, agency directors and leaders in the field of aging.

FUNCTIONS OF THE CENTER
• Coordination of the current gerontology programs, including the concentration in social gerontology and the minor in social gerontology. For a detailed description of the current programs, see the sociology/anthropology section in this catalog.
• To pro-actively expedite and facilitate the College’s activities in instructional technology, including distance learning, technology instruction and support, classroom instructional technology activities and the Computer Applications Program (see page 120 of this catalog).

CAREER INFORMATION
SUNY Cortland offers an interdisciplinary minor in computer applications for students to develop skills and knowledge useful in professional development and the workplace. The minor is designed to complement any academic major and focuses on the development of technology applications within various academic disciplines. Students completing the minor will have been exposed to a variety of computers and software applications as tools in a variety of “real world” environments and will have had experiences in solving problems in their respective disciplines.

Interdisciplinary Centers
James M. Clark
Center for International Education

**Faculty**
Henry Steck (Interim Director)

**Mission of the Center**
The Clark Center for International Education provides an integrated framework for the College's many international activities and programs. Its mission is to promote, coordinate and initiate programs and events which further international education within the campus environment and in the Cortland community.

The Clark Center reports to the provost. Its membership consists of various departments and units from throughout the College, which address different aspects of international study, scholarship and service.

**Functions of the Center**
- Help develop and enhance the College's existing curricular offerings and programs with an international focus.
- Work closely with the College's Study Abroad Program, the International Studies Program, the International Communications and Culture Department, the Project for Eastern and Central Europe, the Trans-Africa Project, and the International Programs Office, and other departments and groups that promote the College's international mission.
- Develop new international programs for the College and funding proposals for that purpose.
- Work with faculty and staff to encourage and facilitate faculty and staff exchanges, visiting international faculty and research, teaching and service abroad by SUNY Cortland faculty.
- Work with the Admissions Office and the Enrollment Management Office to attract and retain students involved in the College's international course offerings and programs.
- Assist the International Student Association and aid the international student advisor and the director of Whitaker Hall in enriching the educational experience of the College's international students.
- Initiate, promote and coordinate international events and activities of interest to the campus as well as to Cortland and the surrounding community.
- Work with the Office of International Programs at SUNY System Administration.

**Study Abroad**
The International Programs Office administers the College's many opportunities for study abroad. See page 275 of this catalog.

**The International Studies Program**
The International Studies Program is an interdisciplinary major in which students study the modern world as a whole rather than any one country or society within it. The program has special appeal for students interested in foreign languages, study abroad and global studies. See page 201 of this catalog.

**International Communications and Culture Department**
This department offers opportunities for the study of foreign languages, foreign literatures and foreign cultures. Liberal arts majors and minors in French and Spanish are administered through this department. Students who incorporate education courses into their programs may qualify for professional certification as teachers. The department also offers courses in Arabic, Chinese and German, and participates in interdisciplinary programs in cinema study and international study. See page 192 of this catalog.

**The Project for Eastern and Central Europe (PECE)**
The Project for Eastern and Central Europe fosters and develops affiliations and working relationships between SUNY Cortland and universities in Eastern and Central Europe. PECE sponsors conferences for this purpose as well as student and faculty exchanges. PECE is dedicated to fostering shared knowledge, cooperation and mutual understanding among the peoples of Eastern and Central Europe and those in the United States.

**The Trans-Africa Project**
The Trans-Africa Project (TAP) fosters and develops affiliations and working relationships between SUNY Cortland and universities in Africa. TAP sponsors conferences for this purpose as well as student and faculty exchanges. TAP is dedicated to fostering shared knowledge, intellectual and cultural cooperation and mutual understanding among the peoples of Africa and those in the United States and the African Diaspora.

**Whitaker Hall**
Whitaker Hall is a student residence hall containing a number of designated single and double rooms, many with a private bath. Whitaker Hall has a decidedly international atmosphere. Students from around the world live in Whitaker with American students. Preference is given to Cortland students who would like to live with a roommate from another country. World culture nights and evenings of global awareness featuring talks, games, music and food are a regular part of Whitaker's special programming. Through its satellite system, residents can view television programming from around the world.

**Global Ambassadors (International Student Organization)**
Open to all Cortland students, the purpose of the Global Ambassadors is to provide a link between American students and those from other countries. Travel, activities and programs sponsored by the club foster an atmosphere in which students from other countries can learn about American life and culture while American students learn about the life and culture of the other countries.
Center for Multicultural and Gender Studies

Faculty
Sheila Cohen (Interim Director)

Mission of the Center
The Center for Multicultural and Gender Studies is comprised of several programs overseen by individual coordinators. The primary goal of the Multicultural and Gender Studies (MCGS) Council is to support the College's mission statement by helping students “develop an ability to function within a pluralistic society, with respect for human diversity.”

Specifically, all of our programs endeavor to educate students to appreciate cultural diversity in all of its various forms by designing courses addressing issues of race, ethnicity, class, gender, religious and sexual orientation. A further goal of the programs is to produce students who are well informed and conversant about the dichotomy between the dominant culture and marginalized groups in society. This endeavor is supported by the College-wide General Education requirements in prejudice and discrimination initiated by the council.

In addition to curriculum, the center takes a leadership role in faculty development, student support, sponsorship of cultural events and other activities related to multicultural and gender studies. Our mission is to promote and support scholarship and teaching that enhances our understanding of the experiences and contributions of under-represented groups and women.

Concurrent with this mission is our effort to work toward improving the campus climate for these same groups so that their experiences and cultures are studied, valued and understood.

Functions of the Center
The Center for Multicultural and Gender Studies functions “as the unit of the College with responsibility for curriculum, research, faculty development, cultural events, student support and other activities related to multicultural and gender studies.”

Formed in 1985, the center's foremost objective is to help create a climate that promotes understanding of and appreciation for human difference. The center reflects an inclusive multicultural model where “culture” is broadly defined and multicultural education is thought to encompass factors such as race, ethnicity, gender, class and sexual orientation.

The center’s central operating assumption is that all oppressed groups share a similar, though not identical, body of experiences that promotes a common bond. While the separate identities of groups must be acknowledged and respected, the center strongly endorses the need for these groups to work collectively in pursuing social justice.

The agenda of the center is truly multifaceted. Through its curriculum programs, the center emphasizes the intellectual and artistic contributions of groups that traditionally have been under-represented in higher education as well as the historical and often institutionalized obstacles these groups have had to overcome. Through its work with other College units, the center also strives to positively influence the extracurricular campus environment.

The center offers a major and minor in African American Studies and minors in Asian Studies, Jewish Studies, Latin American Studies, Native American Studies and Women's Studies. It also oversees curriculum programs in these areas. Courses in lesbian and gay concerns are offered, but no minor is available yet.

Students who study in these areas are encouraged to think critically and write thoughtfully about the historic, social, economic and political conditions that affect all people living in a culturally diverse society.

African American Studies
The African American Studies Program is the oldest of the ethnic studies programs at SUNY Cortland.

Administration of the African American Studies Program and advisement of its students are provided by the African American Studies Committee, a subcommittee of the Center for Multicultural and Gender Studies.

For more information, see page 209 of this catalog.

Asian Studies
The Asian studies minor is an interdisciplinary program designed to serve the needs of students majoring in any subject area who desire more knowledge regarding Asia and Asian American concerns.

Administration of the Asian Studies Program and advisement of its students are provided by the Asian Studies Committee, a subcommittee of the Center for Multicultural and Gender Studies.

For more information, see page 82 of this catalog.

Jewish Studies
The Jewish Studies Program explores the cultural and religious experiences of the Jewish people from their beginnings to the present. At SUNY Cortland, Jewish studies attempts to shed light on the difficult choices all non-dominant groups face with regard to acculturation and assimilation.

Administration of the Jewish Studies Program and advisement of its students are provided by the Jewish Studies Committee, a subcommittee of the Center for Multicultural and Gender Studies.

For more information, see page 208 of this catalog.

Latin American Studies
Latin American studies offers a minor designed to complement many academic majors. Students choosing the minor will study the history and cultural production of Latin Americans from the perspective of several disciplines.

Administration of the Latin American Studies Program and advisement of its students are provided by the Latin American Studies Committee, a subcommittee of the Center for Multicultural and Gender Studies.

For more information, see page 209 of this catalog.

MINORS OFFERED
International Studies

DESCRIPTION
The international studies (IST) major is a unique global studies approach to understanding the international world in the context of a liberal arts education. The interdisciplinary nature of the major provides students with knowledge of the historic and contemporary development of the international system as well as the opportunity to choose the direction of their study of particular aspects of the global social, economic and political structure from disciplinary or geographical vantage points.

Students also complete the IST major with a strong foreign language background, enabling them to begin careers in the international world immediately upon graduation.

SPECIAL FEATURES
• Wide-ranging study-abroad opportunities
• Opportunities for internship experience
• Independent study and collaborative research with faculty members
• Involvement in the NeoVox international Internet news magazine

CAREER POTENTIAL
• International business positions
• International law practice
• World Bank positions
• United Nations translators/posts
• World Trade Organization posts
• U.S. government/State Department positions
• Non-Government corporation and organization positions

Requirements
1. Degree Requirements listed on pages 36-43 of this catalog apply to the following majors.

2. Liberal Arts Requirements: 90 credit hours

The IST major’s 36 credit hours comprise a set of five core courses and a seven-course concentration chosen from the list below. The core courses orient the student to the historical processes and contemporary economic issues of the modern international system. The concentration may be geographical in nature, or be focused within a particular discipline. Alternatively, the student may choose an individualized concentration which will be interdisciplinary in nature, with course work defined by a conceptual theme or problem, or with a geographical focus not presently offered. The individualized concentration may be drawn from throughout the College’s course offerings.

Note: some courses in concentrations may have prerequisites not listed.

Waivers of requirements and approval for substitution of courses may be granted only by the coordinator with the approval of the associate dean. Courses taken in a concentration may not count for a minor in the same field (e.g., a Latin American concentration cannot be combined with a Latin American minor). In order to satisfy major requirements, students may take topic courses offered in individual departments, arrange for an independent study, or complete up to six credit hours of an internship (CPV 400), with approval of the advisor, the international studies coordinator and the associate dean.

Students majoring in international studies are required to demonstrate additional foreign language proficiency beyond the regular College language requirement. The IST language requirement may be fulfilled in one of the following ways:

A. Successfully completing 12 hours of course work in a foreign language at the 300-level or above.
B. Successfully completing one semester of study abroad in the target language; course work or other programs of study must be in the target language. Courses or other study conducted in English will not be accepted in fulfillment of this requirement.
C. Satisfying the College foreign language requirement (i.e. 13 credit hours or its equivalent) in a second foreign language. Students whose native language is not English may be exempt from the language proficiency requirement.
D. Earning a rating of Intermediate High on the American Council of Teachers of Foreign Language/Educational Testing Service academic scale, as determined by an oral interview with a qualified tester. Students should contact the International Communications and Culture Department for additional details.

* To be eligible for student teaching, a student must have declared adolescence education: social studies (7-12) as a major by the beginning of the second semester of the junior year and must have senior status, at or near 90 credit hours, with 24 credit hours in the academic social science major, which must be officially declared. A student must also have an overall grade point average of 2.5, a grade point average of 2.7 in the academic social science major, and a C or better in AED 300. No student who receives a grade below a C- in any introductory course in the academic social science major will be allowed to enter student teaching until the course has been retaken and a higher grade earned. Student teaching is a capstone experience: students who cannot graduate by the December following student teaching may not register for the AED 400, 401, 402 sequence.

TOTAL CREDIT HOURS REQUIRED FOR GRADUATION: 126

**Minor in International Studies [IST]**

A. Required courses: Nine credit hours:
   - IST 400: Seminar: Themes in International Studies

B. Elective Courses: Nine credit hours:
   - Foreign language beyond the 202 level: 3 credit hours
   - Electives in either an area or a disciplinary concentration: Six credit hours

TOTAL CREDIT HOURS REQUIRED FOR THE MINOR: 18
International Studies

COURSE DESCRIPTIONS

IST 100: Culture through Film
(B) Introduction to film as an art form and to the basic narrative and stylistic aspects of film; study of film as a medium of cultural representation and expression; exploration of current and historical global themes and issues through screening, study and discussion of course films. MINOR OFFERED
Jewish Studies

DESCRIPTION
The Jewish studies minor is an interdisciplinary program focusing on the study of the Jewish people — their religion, history, literature and culture. The program seeks to enhance the student’s understanding of the Jewish people and the variety of their cultural experiences while also furthering the College’s mission to study and combat prejudice and discrimination. The minor is designed to complement a number of academic majors. Administration and advisement for this program are conducted by the Jewish Studies Committee of the Center for Multicultural and Gender Studies.

SPECIAL FEATURES
• Overseas program in Israel

Minor in Jewish Studies [JST]
The minor in Jewish studies consists of 18 hours: nine hours in required courses and nine hours of electives. Relevant special topics courses in some departments may also be acceptable in addition to the specified courses below. With advisement from a Cortland Jewish studies advisor, students may complete all or part of the minor in an accredited summer, semester, or year academic program in Israel.

CAREER POTENTIAL
• Jewish educator • Community outreach work • Jewish community relations • Multicultural affairs

A. Required Courses: Nine credit hours
JST 140: Basic Judaism
JST/HIS 361: Jews in the Ancient World
JST/HIS 363: Jews in the Modern World

B. Other: Nine hours from among the following. No more than six may be taken in history.
ANT 312: Peoples of the Middle East
JST/ENG 250: Introduction to Jewish Authors
JST 329: Special topics
JST 360: Directed Study
JST/HIS 362: Jews in the Middle Ages
JST/HIS 460: The Holocaust
JST/HIS 461: Modern Israel and the Arab-Israeli Conflict
POL 456: International Politics of the Middle East
RLS 200: World Religions
SOC/ANT 352: U.S. Ethnic Identity and Conflict
SOC 475: Sociology of Religion

PROGRAMS OFFERED
Master of Science in Education: Literacy Education

DESCRIPTION
The Literacy Department provides undergraduate course work for the following programs: Bachelor of Arts or Bachelor of Science in Childhood Education, Bachelor of Arts or Bachelor of Science in Early Childhood Education, Bachelor of Arts or Bachelor of Science in Early Childhood and Childhood Education, Bachelor of Science in Special Education/Childhood, and Bachelor of Arts in Adolescence Education.

Seniors in their final semesters of undergraduate study may request permission to register for courses at the 500 level for graduate credit. Students are cautioned that application to the graduate literacy program is competitive. Successful completion of literacy course work does not guarantee acceptance into the graduate literacy program.

DESCRIPTION
The Mathematics Department offers programs for students interested in developing quantitative, logical reasoning and problem-solving skills in preparation for careers in business, government or industry, or for graduate study in mathematics. Students interested in teaching may choose a concentration leading to provisional certification in mathematics or joint certification in physics and mathematics for grades 7-12.

SPECIAL FEATURES
• Mathematics Club
• Mathematics Computer Classroom
• Institutional Memberships in the Association for Women in Mathematics (AWM), Mathematical Association of America (MAA) and the National Council of Teachers of Mathematics (NCTM)
• Putnam Examination and Mathematical Contest in Modeling teams
• Participation in regional undergraduate mathematics conferences

Requirements
1. Degree Requirements listed on pages 36-43 of this catalog apply to the following majors.

2. Liberal Arts Requirements: B.A. – 90 credit hours;
B.S. – 75 credit hours

3. Students transferring to SUNY Cortland from other colleges intending to major in mathematics should have completed at least 12 credit hours of calculus and 6 credit hours of additional mathematics at the calculus level or above by the beginning of their junior year.

Major in Mathematics [MAT]
The liberal arts program in mathematics provides broad background in both pure and applied mathematics. The B.S. option is more appropriate for students interested in scientific and technical applications of mathematics.

CAREER POTENTIAL
• Actuary
• Computer analyst
• Cryptologist
• Statistician

A. Required Courses: 27 credit hours
MAT 135, 236, 237: Calculus I, II, III
MAT 224: Discrete Mathematics
MAT 272: Linear Algebra
MAT 370: Algebraic Structures I
MAT 420: Intermediate Analysis
MCS/PHY 186: Introductory Programming

B. Additional MAT or MCS electives:
Nine credit hours (B.A.), 15 credit hours (B.S.)
Both the B.A. and B.S. degree require nine hours of any MAT or MCS courses numbered 300 or above. The B.S. degree requires six additional hours of MAT or MCS courses excluding MAT 101, 102, 110, 111, 115, 201 or 499.

C. Physical Science: 0–7 credit hours (B.S. only)
Two courses must be chosen from the following:
CHE 221: General Chemistry I
CHE 222: General Chemistry II
GLY 261: Physical Geology
GLY 262: Historical Geology
PHY 150: Astronomy
PHY 201: Principles of Physics I
PHY 202: Principles of Physics II
These courses may also simultaneously satisfy the requirements for General Education Category 8, providing seven additional elective credit hours.

Major in Adolescence Education: Physics and Mathematics (7-12) [APM]

This major leads to New York State certification to teach both physics and mathematics in grades 7-12.

CAREER POTENTIAL

• High school teacher  • Public school administration
  • Technical specialist  • Graduate study in higher education

ACCEPTANCE TO THE PROGRAM

Students will be accepted to the program after 45 credit hours have been completed. At that time students must have an overall grade point average of 2.5 and a grade point average of 2.5 in physics, in related areas, and in the professional core courses.
A. Required Courses in Physics: 30 credit hours
   PHY 150: Astronomy
   PHY/MCS 186: Introductory Programming
   PHY 201, 202, 203: Principles of Physics I, II and III
   PHY 357: Intermediate Physics Lab
   PHY 410: Modern Physics
   PHY 420: Classical Mechanics
   PHY 450: Electricity and Magnetism
B. Required Courses in Mathematics: 33 credit hours
   MAT 135, 236, 237: Calculus I, II, III
   MAT 430: Differential Equations
   MAT 224: Discrete Mathematics
   MAT 272: Linear Algebra
   MAT 370: Algebraic Structures I
   MAT 375: Geometry I
   MAT 446: Probability and Statistics
   MAT 480: History of Mathematics
C. Required Courses in Related Areas of Science: 8 credit hours
   CHE 221-222: General Chemistry I and II
D. Required Professional Courses: 38 credit hours
   AED 391: Introduction to Adolescence Education
   AED 392: Methods I: Teaching Adolescence Mathematics
   AED 443: Methods II: Teaching the Sciences in the Middle and Secondary Schools
   AED 444: Laboratory Practicum
   AED 445: Student Teaching: Adolescence Education - Science
   HLH 199: Critical School Health Issues
   LIT 449: Literacy in the Middle and Secondary School
   MAT 111: Algebra for College Students
   MAT 105: Mathematics in Modern Society
   PSY 101: General Psychology
   PSY 232: Adolescent Psychology
   PSY 350: Psychology of Language or
   SHH 300: Normal Language Development
E. Additional Requirements: 27-34 credit hours
   Composition and General Elective Courses: 27 credit hours
   Foreign Language: 0-6 credit hours
F. Admission to the Major
   Completion of 45 credit hours with at least a 2.5 grade point average overall and at least a 2.5 grade point average in each of areas A, B and C above.
G. Eligibility for Student Teaching
   To be eligible for AED 445: Student Teaching: Adolescence Education - Science, a minimum overall grade point average of 2.5 is required. Additionally, a minimum grade point average of 2.5 is required in each of areas A, B and C above. A student must complete all program requirements before student teaching can begin with the exception of those courses allowed by the Physics Department and the adolescence education: science coordinator. Additionally, each teacher candidate will be required to submit a professional portfolio.
H. Other Requirements
   Specific information regarding requirements (for example, state examinations and reporting of child abuse and maltreatment) for New York State teaching certification can be found on pages 43-44 of this catalog.

TOTAL CREDIT HOURS REQUIRED FOR GRADUATION:
B.A.: 136-149; B.S.: 136-143

Minor in Mathematics [MAT]

Required courses:
Eighteen credit hours of MAT or MCS courses, including MAT 121 and 122, or 135 and 236, and 224. Additionally, at least one elective course must be taken at the 200 level or above. At most six credit hours may be chosen from the following courses: MAT 101, 102, 105, 110, 111, 115, MCS 186, MAT 101 and 102 are open only to CED/CHD(W), ECE/ECH(W), ECC/DEC(W) and SPC/ISE(W) majors.

TOTAL CREDIT HOURS REQUIRED FOR THE MINOR: 18-20

Mathematics

COURSE DESCRIPTIONS

Computer Science

MCS 186: Introductory Programming
   (A) Simple data types, arithmetic statements, input/output statements, simple control structures and one-dimensional arrays. Also listed as PHY 186. (3 cr. hr.)

MCS 584: Topics in Computer Science
   (O) Topics from areas of common interest to instructor, students. May be repeated as subtitle changes. Prerequisite: Consent of department. (3 cr. hr.)

Mathematics Courses

MAT 101: Concepts of Elementary School Mathematics I
   (A) Topics include sets and logic, numeration systems, number theory, rational numbers and decimals. Open only to elementary education majors (including EEDW). Not open to mathematics majors. (3 cr. hr.)

MAT 102: Concepts of Elementary School Mathematics II
   (A) Topics include elementary probability, statistics, geometry and measurement. Open only to elementary education majors (including EEDW). Not open to mathematics majors. Prerequisite: MAT 101. (3 cr. hr.)

MAT 105: Mathematics in Modern Society
   (B) The use of basic mathematical concepts from algebra and geometry to analyze problems in modern society. Topics may include voting systems, fair division, interpreting statistics, scheduling, routing, linear programming, population growth, patterns and symmetry. Prerequisite: Two units of Regents high school mathematics. (3 cr. hr.)

MAT 111: Algebra for College Students
   (A) Linear, quadratic and other algebraic equations, proportion and variation, inequalities, linear systems, introduction to functions. Applications are drawn from problems in arithmetic, geometry, data analysis, linear regression and linear programming. Prerequisite: Two units of Regents high school mathematics. Not open to students with credit for any higher-numbered mathematics course. (3 cr. hr.)

MAT 115: Elementary Functions
   (A) Polynomial and rational functions, exponential and logarithmic functions, trigonometric functions, conic sections and applications. Prerequisite: MAT 111 or three units of Regents high school mathematics. Not open to students with credit for any calculus course. (3 cr. hr.)
MAT 121: Calculus A  
(B) Functions, graphs and rates of change. Derivatives and applications of derivatives. Mathematical modeling, including exponential growth. Appropriate technology will be used for visualization and experimentation. Not open to mathematics majors or students with credit for MAT 125 or 135. Prerequisite: MAT 115 or four years of high school mathematics. (3 cr. hr.) ■

MAT 122: Calculus B  
(B) Antiderivatives and the definite integral. Techniques of integration. Calculus of several variables, including LaGrange multipliers. Mathematical modeling and applications with emphasis on the physical, social and life sciences. Appropriate technology will be used for visualization and experimentation. Not open to mathematics majors or students with credit for MAT 126 or 236. Prerequisite: MAT 121. (3 cr. hr.) ■

MAT 126: Calculus II  
(A) Continuation of MAT 125. Not open to students with credit in MAT 122 or 135. Prerequisite: A grade of C or above in either MAT 125 or 121. (3 cr. hr.) ■

MAT 129, 229, 329, 429, 529: Special Topics in Mathematics  
Selected topics. May be taken more than once as subtitle changes. Prerequisites: Designated by department as appropriate for content and academic level of credit. (1-4 cr. hr.)

MAT 135: Calculus I  
(A) Limits, continuity, derivatives, and applications of derivatives. Integration, the Fundamental Theorem of Calculus, integration by substitution, applications of integrations. Graphing calculators will be used. Not open to students with credit for MAT 121. Prerequisites: A grade of C or better in MAT 115, preparation for Calculus or four years of high school mathematics including trigonometry and/or pre-calculus. (4 cr. hr.)

MAT 201: Statistical Methods  
(A) Basic concepts of probability, descriptive and inferential statistics including central tendency, variability, correlation, regression, parametric tests. Mathematics majors may take course only as free elective. Also listed as COM 230, PSY 201, ECO 221. (3 cr. hr.) ■

MAT 224: Discrete Mathematics  
(A) An introduction to the methods of set theory, symbolic logic, combinatorics, and functions and mappings. Topics include matrix operations, techniques of proof, and applications in sequences, relations and graph theory. (3 cr. hr.) ■

MAT 227: Calculus III  
Vector calculus, partial differentiation, multiple integration, differential equations. Prerequisite: A grade of C or above in MAT 126. (3 cr. hr.)

MAT 237: Calculus III  
(B) Vectors in two and three dimensions, dot and cross products, equations of lines and planes, the calculus of vector functions. Functions of several variables, partial derivatives, multiple integration and applications, cylindrical and spherical coordinates, vector analysis. Graphing calculators and computer algebra systems will be used. Prerequisite: A grade of C or better in MAT 236. (4 cr. hr.)

MAT 272: Linear Algebra  
(A) Vector spaces emphasizing Euclidean n-spaces, linear systems, matrix algebra. Prerequisite: A grade of C or above in MAT 224. (3 cr. hr.) ■

MAT 328: Calculus IV  
(A) Sequences, series, continuity and limit theorems. Prerequisite: A grade of C or above in MAT 227. (3 cr. hr.) ■

MAT 350: Theory of Numbers  
(C) Elementary number theory; divisibility theory, congruences, residues, Diophantine equations. Prerequisite: a grade of C or better in MAT 224. (3 cr. hr.) ■

MAT 354: Numerical Analysis I  
(O) Techniques, applications of numerical analysis. Prerequisite: MAT 122 or 227 or 237. (3 cr. hr.) ■

MAT 370: Algebraic Structures I  
(A) Abstract algebra including groups, rings, fields. Prerequisite: A grade of C or above in MAT 272. (3 cr. hr.) ■

MAT 375: Geometry I  
(A) Axiom systems, foundations of Euclidean geometry, projective geometry. Prerequisite: A grade of C or above in MAT 224. (3 cr. hr.) ■

MAT 402: Intermediate Analysis  
(A) Basic concepts, including theory of functions, limits, integration, convergence. Prerequisite: A grade of C or above in MAT 224 and either MAT 237 or 328. (3 cr. hr.) ■

MAT 425: Applied Mathematics in the Physical Sciences  
(S-C) Vector analysis, matrix operations, functions of a complex variable. Fourier series, integral transforms, with emphasis on applications. Prerequisites: MAT 227 or 237and PHY 202. Also listed as PHY 425. (3 cr. hr.) ■

MAT 430: Differential Equations  
(S) Linear differential equations of first and second orders; total, partial differential equations. Prerequisite: MAT 227 or 237. (3 cr. hr.) ■

MAT 446: Probability and Statistics  
(A) Probability as mathematical system; discrete, continuous random variables and their distribution functions; topics in statistical inference, including estimation, hypothesis-testing. Prerequisite: A grade of C or above in MAT 227 or 237. (3 cr. hr.) ■

MAT 475: Geometry II  
(O) Continuation of MAT 375; includes non-Euclidean systems. Prerequisite: MAT 375. (3 cr. hr.) ■

MAT 480: History of Mathematics  
(B) Backgrounds in origins, development of mathematics in various western cultures. Prerequisites: A grade of C or above in MAT 224 and either MAT 122 or 126 or 236. (3 cr. hr.) ■
MAT 495: Readings in Mathematical Literature  
(O) Semi-independent study directed by member of mathematics staff. Course may be repeated for a maximum of nine credit hours. Registration by special consent only. (3 cr. hr.)

MAT 501: Fundamental Concepts of Mathematics  
(B) Logic, sets, mathematical systems, relations and techniques of proof. Prerequisite: Consent of department. (3 cr. hr.)

MAT 502: Applied Concepts in Adolescence Mathematics  
(B) Applications and extensions of concepts basic to secondary school mathematics. Topics discussed include Greek mathematics; Euclidean, hyperbolic and spherical geometries; number theory and fractals. Real world applications of the aforementioned topics will be a major component of the course. Prerequisite: Consent of department. (3 cr. hr.)

MAT 511: Chaos, Fractals and Dynamics  
(O) Applications of advanced calculus to chaotic dynamical systems. Orbit analysis, bifurcations, symbolic dynamics, quadratic systems, Devaney’s definition of chaos, Sarkovskii’s Theorem, fractals, Julia and Mandelbrot sets. Prerequisite: MAT 501 or consent of department. (3 cr. hr.)

MAT 537: Complex Analysis  
(O) Introduction to integration, differentiation, series expansion of complex functions. Prerequisite: MAT 501. (3 cr. hr.)

MAT 558: Mathematical Statistics  
(O) Selected topics in mathematical statistics. Prerequisite: MAT 501. (3 cr. hr.)

MAT 567: Topology I  
(O) Basic concepts; point-set topology, metric spaces, topological spaces, connectedness, compactness. Prerequisite: MAT 501. (3 cr. hr.)

Related Education Courses

AED 391: Introduction to Adolescence Education  
(A) Students will develop a coherent and comprehensive personal educational philosophy; analyze the role of education and teachers in society; demonstrate an understanding of teacher certification standards and requirements; evaluate teaching, lesson planning and implementation and cooperative skills; and develop a portfolio. The course includes 25 hours of field observation/teaching experience. (3 cr. hr.)

AED 392: Methods I – Teaching Adolescence Mathematics  
(B) Developing practical materials for use in the mathematics classroom, aligning lesson plans with state and national learning standards, developing strategies for motivating students with diverse needs and learning styles, understanding how and when to use different teaching styles, and understanding the uses of technology in the classroom. The course includes 25 hours of field experience. Only open to Adolescence Education: Mathematics (7-12) and Adolescence Education: Physics and Mathematics (7-12) majors. Not open to Adolescence Education: Mathematics (7-12) wait-listed or Adolescence Education: Physics and Mathematics (7-12) wait-listed majors. Prerequisites: MAT 224 and 227 or 237, and a grade of C or better in either AED or EDU 391. (3 cr. hr.)

AED 399: Mathematics Practicum  
(O) For students serving as tutors and providing other assistance in 100-level college mathematics courses or in mathematics classes in grades 7-12. Course may be repeated for a maximum of three credit hours. H, S, U grades are assigned. Prerequisites: AED 391, MAT 224, MAT 227 or MAT 237 and permission of department chair. (1-2 cr. hr.)

AED 492: Methods II – Field Experiences in Adolescence Mathematics  
(B) Students complete modules that are structured learning experiences related to teaching mathematics in grades 7-12. The course includes 50 hours of directed field experiences at the junior and senior high school level. Class meetings focus in discussion and assessment of individual field experiences. Prerequisite: MAT 480 and either AED 392 or EDU 442. (3 cr. hr.)

AED 493: Student Teaching – Adolescence Mathematics I  
(A) Seven weeks of full-time student teaching supervised by college faculty. H, S, U grades are assigned. Prerequisite: AED 492. (7 cr. hr.)

AED 494: Student Teaching – Adolescence Mathematics II  
(A) Seven weeks of full-time student teaching supervised by college faculty. H, S, U grades are assigned. Prerequisites: AED 492. (7 cr. hr.)

AED 540: Technologies in the Adolescence Mathematics Classroom  
(C) Graphing calculators as teaching tools. The Internet as a source for mathematical software packages to promote active learning. A number of software packages dealing with a variety of mathematical topics, including graphing functions, geometry and calculus will be investigated. (3 cr. hr.)

EDU 471: Foundations of Modern Education  
(A) Social, historical and philosophical issues in education. Emphasis on critical analysis of educational reforms, movements and practices. (3 cr. hr.)

LIT 449: Literacy in the Middle and Secondary School  
(F) Methods, materials and assessment for fostering literacy at the middle and secondary levels. (3 cr. hr.)

CROSS-ENROLLMENT PROGRAM WITH CORNELL UNIVERSITY

Air Force ROTC

Air Force ROTC – Cornell University

(607) 255-4004
E-mail: admissions@www.afrotc.cornell.edu

PROGRAM OVERVIEW
Air Force ROTC is available to SUNY Cortland students under a cross-enrollment arrangement with the Air Force ROTC detachment at Cornell University. Information about the program may be obtained through the Admissions Office at SUNY Cortland or by contacting the Cornell University ROTC Office at the address above.

The objective of the Air Force Officer Education Program is to prepare men and women for positions as officers in the United States Air Force. The program is designed to teach students about the mission and organization of the Air Force, the historical development of air power, leadership and management. Students study national security policy and the role of the military in a democratic society. This program includes specific courses in aerospace studies and practical leadership laboratories.

ELIGIBILITY
The Air Force Officer Education Program is open to any qualified undergraduate or graduate student enrolled in any major field of study. An applicant must be a United States citizen to become a commissioned officer. Noncitizens may enroll and will receive certificates acknowledging completion of the course but cannot receive a commission.

All applicants receive physical examinations at no cost and must meet certain physical requirements to be accepted.

All students who successfully complete the AFROTC program are awarded a baccalaureate degree, tendered a commission and enter the Air Force as second lieutenants. Second lieutenants commissioned in non-flying categories are required to serve on active duty for four years. Pilots are required to serve on active duty for ten years after completing flying training. Navigators serve six years after completing training.

PROGRAM OVERVIEW
Army ROTC is available to SUNY Cortland students under a partnership arrangement with the Army ROTC Battalion at Cornell University. By enrolling the Army Reserve Officer Training Corps, students at SUNY Cortland are afforded opportunities to complement their study in one of the College’s academic majors with training that can lead to receiving a commission as a second lieutenant upon graduation. The curriculum emphasizes techniques of organizing, motivating and leading others and is sufficiently flexible to be incorporated easily into the overall curriculum plan of a student. Army ROTC prepares students to develop those skills necessary to be a successful leader in the Army.

The Army ROTC four-year program of instruction consists of a two-year basic course for freshmen and sophomores and a two-year advanced course for juniors and seniors. Students may enroll in the program at any time up to and including the second semester of the sophomore year.

Students may sign up for one military science course and its applicable practical leadership training (PLT) each semester. (Students taking MSL classes must also participate in the applicable PLT.) The number of hours a week spent in the classroom varies from semester to semester, as does the credit received for each course. Freshmen and sophomore classes will be taught at a location to be determined near the SUNY Cortland campus. Junior and senior courses will meet every Tuesday afternoon at Cornell University.

ELIGIBILITY
Students at SUNY Cortland may take ROTC classes without enrolling in ROTC, as long as specific medical requirements are met. Those students seeking a commission by enrolling in ROTC should contact the Cornell University ROTC Office at the address above.
Example of the Air Force ROTC program

Students in the Four-Year Program are required to take all courses listed below. Students in the Two-Year Program are required to take all of the courses listed for the third and fourth years. Students enrolled in the One-Year Program are required to take all courses listed for the fourth year. There are no prerequisites for any aerospace studies.

**Course Descriptions**

**AFS 161: The Foundations of the United States Air Force I**

(F) This is a survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include: mission and organization of the Air Force, officerhood and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with followership experiences. (1 cr. hr.)

**AFS 162: The Foundations of the United States Air Force II**

(S) Continuation of AFS 161. (1 cr. hr.)

**AFS 211: The Evolution of USAF Air and Space Power I**

(F) This course is designed to examine general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the first balloons and dirigibles to the role of air power in the war on terrorism. Historical examples are provided to extrapolate the development of Air Force capabilities (competencies) and missions (functions) to demonstrate the evolution of what has become today's USAF air and space power. Furthermore, the course examines several fundamental truths associated with war in the third dimension: e.g., Principles of War and Tenets of Air and Space Power. As a whole, this course provides the students with a knowledge-level understanding of the general element and employment of air and space power from an institutional, doctrinal and historical perspective. In addition, students will continue to discuss the importance of the Air Force Core Values by examining operational examples and historical Air Force leaders and will continue to develop their communication skills. (1 cr. hr.)

**AFS 212: The Evolution of USAF Air and Space Power II**

(S) Continuation of AFS 211. (1 cr. hr.)

**AFS 331: Air Force Leadership Studies I**

(F) This course is a study of leadership, quality management fundamentals, professional knowledge, Air Force personnel and evaluation systems, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences in officer-type activities, giving students the opportunity to apply leadership and management principles of this course. (3 cr. hr.)

**AFS 332: Air Force Leadership Studies II**

(S) Continuation of AFS 331. (3 cr. hr.)

**AFS 401: National Security Affairs/Preparation for Active Duty I**

(F) This course examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, officerhood, military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences, giving students the opportunity to apply the leadership and management principles of this course. (3 cr. hr.)

**AFS 402: National Security Affairs/Preparation for Active Duty II**

(S) Continuation of AFS 401. (3 cr. hr.)

**Leadership Laboratory Courses**

All Air Force cadets spend two hours a week throughout the academic year in a leadership laboratory, for which no academic credit is given. Occasionally laboratories are held at times other than the normally scheduled period. All cadets are expected to participate in an evening formal dinner and to meet minimum physical fitness and weight standards each semester. Leadership lab is open to students qualified to compete for an Air Force commission.

**AFS 141-142: Initial Military Experiences**

Introduction to the responsibilities, life, and work of an Air Force officer. Basic knowledge of drill and ceremonies, military courtesies, and the wearing of the uniform. Field trip to local military installation.

**AFS 241-242: Intermediate Military Experiences**

Develops skills in giving commands for drill and ceremonies. Introduction to the Air Force base environment in which the Air Force officer functions. Includes a look at career areas available based on academic majors. Students participate in leadership situations through military drills and ceremonies. Field trip to a local military installation.

**AFS 341-342: Junior Officer Leadership**

Cadets assume leadership responsibilities similar to those of a junior officer. Emphasis is on the importance of applying effective human relations skills in dealing with superiors, peers, and subordinates. Cadets also gain insight into the general structure and progression patterns common to selected Air Force officer career fields.

**AFS 441: Advanced Leadership Experiences**

Cadets assume leadership responsibilities to operate a military organization. Cadets apply effective leadership and managerial techniques with individuals and groups and participate in self-analysis of leadership and managerial abilities.

**AFS 442: Precommissioning Laboratory**

Factors that facilitate transition from civilian to military life are reviewed. The need for military security, base services and activities, personal finances, travel regulations and social obligations is introduced.

**Army ROTC**

**MSL 101: Foundations of Officership**
(F) The purpose of this course is to introduce to students issues and competencies that are central to a leader’s responsibilities. It is comprised of five modules of instruction: ethics and values, leadership, personal development, physical well-being and the Army profession. Additionally, this course addresses the specific life skills of time management, stress management and physical fitness. Applicable Leadership Lab: MSL 151. (1 cr. hr.)

**MSL 102: Basic Leadership**
(S) This course is designed to build upon the fundamentals introduced in MSL 101 by focusing on communication skills, leadership and problem solving. It is comprised of four modules of instruction: communications, personal development, physical well-being and the Army profession. Life skills addressed in this course are: effective writing, goal setting, problem solving, active listening, nutrition, developmental counseling and assertiveness skill development. Applicable Leadership Lab: MSL 152. (1 cr. hr.)

**MSL 201: Individual Leadership Studies**
(F) This course focuses on how to build teams, how to influence, how to communicate, how and when to make decisions, how to engage in creative problem solving and how to plan and organize. Values and ethics, along with the life skills taught in MSL 101-2 are also reinforced. Applicable Leadership Lab: MSL 251. (1 cr. hr.)

**MSL 202: Leadership and Teamwork**
(S) This course is a continuation of MSL 201 with more practical applications of team building. Applicable Leadership Lab: MSL 252. (1 cr. hr.)

**MSL 301: Leadership and Problem Solving**
(F) The focus of this course is leadership development. Students will learn to objectively analyze their personal leadership skills and performance while planning and conducting group training events. The life skills taught during MSL 101-2 and 201-2 will be reinforced. Applicable Leadership Lab: MSL 351. (2 cr. hr.)

**MSL 302: Leadership and Ethics**
(S) This course is designed to continue the development of students as leaders by presenting instruction in the three foundational areas of interpersonal communication, values and ethics, and leadership. The modules focus on general communication theory, nonverbal communication, written and spoken communication skills, ethical decision-making, moral leadership, consideration of others (respecting diversity), spiritual needs, leadership and personality assessments, transactional and transformational leadership, and adult development. Prerequisite: MSL 301. Applicable Leadership Lab: MSL 352. (2 cr. hr.)

**MSL 401: Leadership and Management**
(F) This course concentrates on operations and training management, communications and leadership skills, staff coordination, effective meetings, social exchange and expectancy theories, and personal problem and crisis counseling skills. Prerequisite: MSL 302. Applicable Leadership Lab: MSL 451. (2 cr. hr.)

**MSL 402: Officership**
(S) This course concentrates on assessing and establishing an ethical climate within an organization, financial planning, the foundations of military law, the Uniform Code of Military Justice, and the law of warfare. This is a capstone course designed to prepare the student for commissioning in the Army as a second lieutenant. Students are required to produce and brief their capstone leadership project. Prerequisite: MSL 401. Applicable Leadership Lab: MSL 452. (2 cr. hr.)

**PRACTICAL LEADERSHIP TRAINING**

No credit is given for practical leadership training, but participation is required for all students taking MSL courses. Training consists of physical fitness training three times per week and two hours of leadership laboratories each week. Students receive physical education credit for the laboratory.

**MSL 151-152: Leadership Laboratory I**
Students meet for two hours each week to learn a variety of skills including first aid, drill and ceremonies, weapons familiarization and physical fitness training. For those students taking MSL 101-2.

**MSL 251-252: Leadership Laboratory II**
Students meet for two hours each week as members of the cadet organization to participate in practical leadership exercises. Types of practical activities include rifle marksmanship, orienteering, drill and ceremonies, signal communications, physical fitness training, first aid, tactics, and field exercises. For those students taking MSL 201-2.

**MSL 351-352: Leadership Laboratory III**
Students meet for two hours a week and occasional weekends to prepare for a five-week summer camp that follow their junior year. Emphasis is placed on the development of individual and leadership skills. Students rotate through leadership positions to practice applying decision-making skills in myriad situations. For those students taking MSL 301-2.

**MSL 451-452: Leadership Laboratory IV**
Senior students evaluate and counsel juniors on the planning and conduct of the weekly Leadership Labs. Seniors have an opportunity to practice leadership skills developed during previous ROTC training and summer camp experiences. For those students taking MSL 401-2.
